

PROCESS TOMOGRAPHY LTD

SPECIAL OFFER 1

A COMPLETE ELECTRICAL CAPACITANCE TOMOGRAPHY SYSTEM FOR £12,500 (approx 20,000\$ US)

Following the development of our new **TFLR5000** very high-speed ECT system, we have a limited number of our previous generation ECT systems available for sale. These are complete single-plane 12-channel ECT systems, supplied with a Windows 7 or XP laptop PC, full set of control and analysis software and a basic 12-electrode ECT sensor. Custom capacitance sensors can be supplied if required at additional cost.

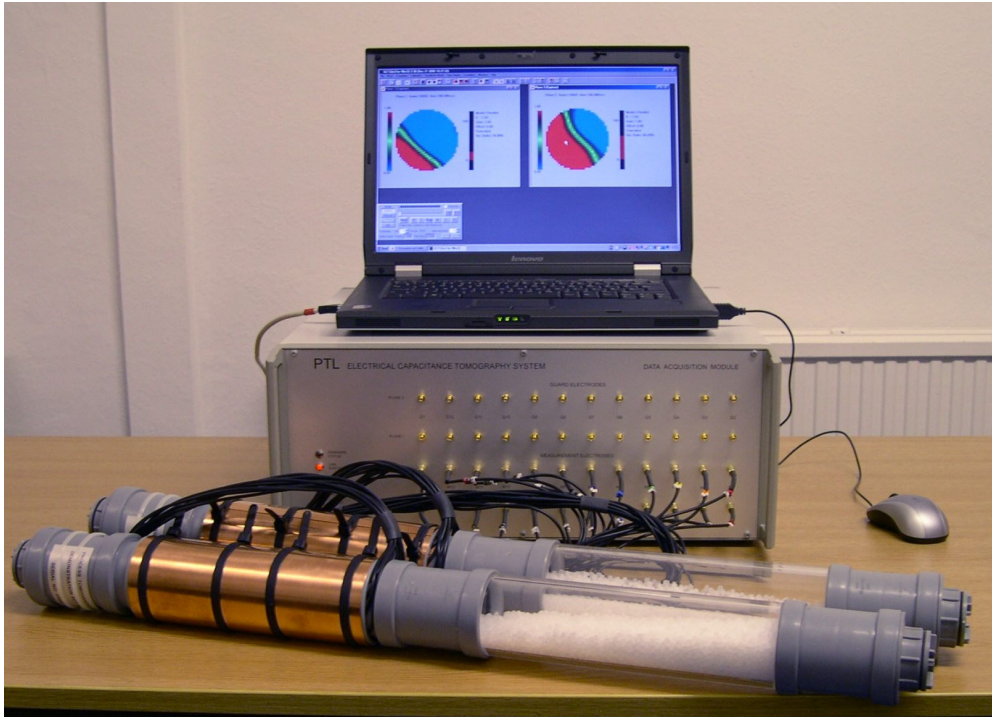

These ECT systems are ideal for educational use, as we also supply a set of suggested experiments which allow the concepts of capacitance and permittivity measurement, permittivity image reconstruction and voidage measurement using a range of algorithms to be demonstrated.

As we have only limited supplies of these tried and tested ECT systems available, please contact us as soon as possible for further information at the address below, or visit our web site at : www.tomography.com which contains comprehensive sales and application data, including detailed information about the **PTL300E-SP-G** ECT system.

Offers continue on next sheet

SPECIAL OFFER 2

A COMPLETE TWIN-PLANE PTL300E ECT SYSTEM FOR £18,500

This re-furbished ex-demonstration **PTL300E-TP-G ECT** system is available at the bargain price of **£18,500 GBP**. It is offered with a full one-year warranty and a complete set of operating manuals, software, 2 demonstration sensors and a current lap-top PC.
